

# DAWN flights through Earl

Submitted by **gradykoch** on Thu, 09/02/2010 - 15:56

- **DAWN**
- **Earl**

Flight Date:

Wednesday, September 1, 2010

DAWN has recorded much data in flights through hurricane Earl. Laser performance has been good, but a component replacement (laser diode drivers) is planned for the no-fly day of Friday. The wind data processing algorithm is still on-going work, leading to the rating of "yellow."

Status:

Yellow
